Let's stop worrying about the Xs and Os and let's start working on ourselves, the relationships, and building connections.

How do we build trust?

- Stop trying to take the shortcuts!
- It may not always be our fault, but it is always our responsibility.
- You have to start living it out daily!

Strategies to Overcome Resistance to a Transformational Culture

- Plan your culture interventions the same way you plan your tactical and technical development.

Strategies to Develop Player Led Culture

- Do what you need to do, because it is the standard of the program.
- Don't just develop your captain's leadership
- Carve out intentional time to develop the team culture and teach lessons.
- Address conflicts and unacceptable behaviors in your team meetings.

Strategies for Fires in Our Team

- **Equip players with proactive strategies we can address the problems we anticipate.**
- Fires will come we need to help our players be aware they are either the problem or the solution.

Preparing Teams for Adversity

- We need to practice overcoming adversity.
- Put adversity in there way and then talk about it.
- Change the environment
- Make things hard for the sake of being hard sometimes to help them grow together.
- Use one player as an “example” of taking hard coaching and criticism.
